ABSTRACT:

          In a method of text improvement, in an image text is detected (SW, Det), the

image is scaled (Scal) to adjust first numbers of pixels per line and lines per image of the

image to second numbers of pixels per line and lines per image that fit in with a display (D)

on which the image is to be displayed, and the image is processed (Post-proc) in dependence

5   on a result of the text detection.
